### **DETAILED ACTION**

Claims 25-27 and 29-46 are pending in the instant application.

#### ***Amendments***

The amendment filed on July 25, 2007 has been acknowledged and has been entered into the application file.

#### ***Previous Claim Objections***

Claims 25-46 were previously objected to for containing elected and non-elected subject matter. The non-elected subject matter has not been completely cancelled from the Application, therefore the objection is maintained except for claim 28 which has been cancelled.

#### ***Previous Claim Rejections - 35 USC § 112***

Claims 25-46 were previously rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. Applicant has traversed the rejection on the grounds that the scope of all transition metals had adequate written description and amended the claims to limit the metallic element to "comprising nickel." Applicant's amendment and arguments have been found to be persuasive and the rejection is withdrawn.

Claims 36-42 and 46 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. Applicant's arguments have been found to be persuasive and the rejection is withdrawn.

#### ***Claim Objections***

Claims 25-27 and 29-46 are objected to for containing elected and non-elected subject matter. The elected subject matter have been identified in the previous action.

**The following rejection is necessitated by the amendment filed on July 25, 2007.**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Where applicant acts as his or her own lexicographer to specifically define a term of a claim contrary to its ordinary meaning, the written description must clearly redefine the claim term and set forth the uncommon definition so as to put one reasonably skilled in the art on notice that the applicant intended to so redefine that claim term. *Process Control Corp. v. HydReclaim Corp.*, 190 F.3d 1350, 1357, 52 USPQ2d 1029, 1033 (Fed. Cir. 1999). The term "metallic element" in claims 25-27 and 29-46 is used by the claim to mean "comprising nickel", while the accepted meaning is "a single element not in combination with another element." The term is indefinite because the specification does not clearly redefine the term.

***Conclusion***

Claims 25-27 and 29-46 are rejected. Claims 25-27 and 29-46 are objected to.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1626

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
